

SD8A840XA-HNP-WP

8MP 40x Network PTZ Camera

Overview

With its powerful optical zoom, and accurate pan and tilt capabilities, the PTZ camera provides an all-in-one solution for long distance video surveillance of outdoor scenes. Together with infrared illumination and Starlight Technology, the camera is a great solution for dark, low light conditions. The series combines a day and night mechanical IR cut filter to produce high quality images in variable lighting conditions during the day.

Foatures

- 1/1.8" 8Megapixel STARVIS™ CMOS
- Powerful 40x optical zoom
- IR distance up to 250 m
- Max. 25/30 fps@4K
- Water level marker detection and calibration
- Water level marker joining
- Boat detection
- Tripwire, Intrusion, Stay detection
- IP67 Rating

Functions

Hydrological Monitoring

Recognizes standard and virtual water level markers. Triggers an alarm when the water level exceeds any of the limits. It also detects floating debris, and sends push notifications with data on the water level.

Starlight Technology

For challenging low-light conditions, Starlight Ultra-low Light Technology offers the best in light sensitivity, capturing color in vivid detail, even in lighting as low as 0.005 lux. The camera uses a set of optical features to balance light throughout the scene, producing clear images in dark environments.

PFA Technology

PFA technology has introduced new methods of judgment that ensure the accuracy and predictability of the direction of subject distance adjustment. The result is a set of advanced focusing algorithms that ensure image clarity when zooming and that shorten focus time. This makes the camera highly advanced in its functions, substantially improving the quality of your experience.

Fnyironment

Developed to operate in extreme conditions, camera can function in temperatures ranging from $-40\,^{\circ}\text{C}$ to $+70\,^{\circ}\text{C}$ ($-40\,^{\circ}\text{F}$ to $+158\,^{\circ}\text{F}$) at 95% humidity. It was subjected to rigorous dust and water immersion tests, gaining its IP67 Ingress Protection certification, making it suitable for demanding outdoor applications.

Wide Dynamic Range

The camera produces vivid images, even in high-contrast lighting conditions, by using industry-leading wide dynamic range (WDR) technology. For scenes that quickly alternate between bright and low lighting, WDR (120 dB) adjusts to fully capture both the bright and dark areas of a scene, producing superior quality videos.

Technical Specification

Camera

Image Sensor	1/1.8" CMOS
Pixel	8 MP
Max. Resolution	3840 (H) × 2160 (V)
ROM	4 GB
RAM	1 GB
Electronic Shutter Speed	1/1 s-1/300,000 s
Scanning System	Progressive
Min. Illumination	Color: 0.005 lux@F1.4 B/W: 0.0005 lux@F1.4 O lux (IR on)
Illumination Distance	250 m (820.21 ft) (IR)
Illuminator On/Off Control	Zoom Prio; Manual; Off
Illuminator Number	10 (IR)
Wiper	Smart Wiper

Lens

Focal Length	5.5 mm-220 mm
Max. Aperture	F1.4-F4.5
Field of View	H: 63.9°–2.0°; V: 37.3°–1.1°; D: 71.2°–2.3°
Optical Zoom	40×
Focus Control	Auto; semi-auto; manual
Close Focus Distance	1.5 m-8 m (4.92 ft-26.25 ft)
Iris Control	Auto
