

Access control accessories

Magnetic Lock

- 280KG Anti-pull.
- Built-in reverse current protection device(MOV).
- Aluminum shell with high strength alloy material.
- Electromagnetic suction work completely, there is no mechanical failure.
- Can be set DC12V or DC24V.
- The residual magnetic design proof, wear materials.
- Double lock body insulation treatment.
- Supports door detector signal feedback.

Access Control Box

- Made from galvanized steel plate, it is elegant and durable.
- Supports receiving power from mains electricity and its storage battery.
- Supports firmware update when used with the Access Controller. This function is only available on select models.
- Built-in air circuit breaker that limits the current and protects the device from electricity leakage and short circuits.
- Built-in illuminator.

Infrared Exit Button (No Touch)

- Professional circuit design, no mechanical failure
- Use stainless steel material
- Normally open/closed functions, flexible application
- 500000 times fatigue test and durability
- Access control project designated accessory products

Emergency Brake Glass Button

- Photoelectric control technology to prevent the mechanical failure
- Use fire retardant material, convenient installation
- Normally open/closed functions, flexible application
- 500000 times fatigue test and durability
- Access control project designated accessory products
